337m²

1,000m²

Unique Character Design: Casa Hemingway stands out in J  vea for its distinctive aesthetic: an elegant olive green facade and unique rounded corners that give it an unmistakable character. This villa of 337 m   built is situated on a 1,000 m   plot with a privileged westerly orientation, ideal for enjoying sunsets, and is available for   ,  2,075,000. Refined Interiors and Premium Materials:The interior design is of superior refinement. It features microcement in the bathrooms and throughout all indoor floors, complemented by modern aluminium windows with double glazing in oxidized color. Layout: The house includes a large open-plan living-dining room connected to a fully equipped kitchen. It has an adjacent laundry room and...(Ask for More Details!)
